

MIL-W-16878/6

Type ET 250V
 MIL Spec Wire
 NEMA HP3

Description:

- Solid or Stranded Silver Plated Copper
- Extruded PTFE Insulation

Characteristics:

- Temperature Rating: -60°C to +200°C
- Voltage Rating: 250 Volts

Application:

PTFE MIL-W-16878/6 MIL Spec wire is intended for electrical or electronic use in protected applications where high temperature will be encountered. The MIL Spec wire has excellent resistance to thermal aging, solder iron damage, flame, and moisture. PTFE also resists solvents, greases, ozone and most other chemicals. These wires are easy to install due to their small size and slippery surface. PTFE has excellent, stable electrical characteristics with low power loss, making it ideal for high frequency applications.

Part Number	Mil Spec Designation	conductor			Insulation Diameter		Maximum resistance at 20°C ohm/km
